

ULTRALIFE®

A-320DPA (Dual Port Adapter)

- Built in LNA for UHF SATCOM operation – approximately 10dB of Gain between 240 -270MHz RX
- Simultaneous connection of two separate antennas
- Utilizes existing A-320 DC power and RF cables
- Easy attachment without tools
- Weights 340g (0.75 lbs)

The Ultralife logo is displayed in a stylized, italicized font with a registered trademark symbol. It is positioned in the upper left corner of the slide's header area, which has a dark background with horizontal light streaks.

A-320DPA (Dual Port Adapter)

The Ultralife A-320V3-DPA (Dual Port Adaptor) provides the following:

- Dismounted, the operator can have both 30-108Mhz & 90-512Mhz antenna attached to A-320V3 & radio, thereby:
 - Allowing multiband radio operators, such as command signaler, JTAC, MFC etc to operate between VHF & UHF without having to change antenna or use multiband antenna.
 - Low Noise Amplifier (LNA) for UHF SATCOM operation provides approximately 10dB of gain.
 - Can also be used in platforms when A-320V3 mounted in A-320HVA, LPAS-320U & A-320QM.
